

**The Synthesis of Polar Substituted
Norbornenes and the Study of their ^{13}C
Chemical Shift and Stereoelectronic
Properties**

A Thesis

Submitted in partial fulfilment
of the requirements for the Degree

of

Doctor of Philosophy in Chemistry

at the

University of Canterbury

by

Thomas Francis

2005

Acknowledgements

My first thanks go to my supervisor Dr. Alan Happer, who has been supported me all through this project. Without his extra support I would not have been able to complete this thesis work. I would also like to thank my co-supervisor Dr. Jonathan White, of Melbourne University, for his help in crystal data analysis.

A special thanks to Prof Ward Robinson for his help in running and solving a number of crystal structures for me. I wish to thank Dr Jan Wikaira and the entire academic staff of the chemistry department for their friendly approach.

I would also like to thank all the technical and support staff of the department of chemistry for their marvelous timely help with a smile.

I cannot forget the names of the 'Men' (and 'Women') of Steel; Chris Fitchett, Chris Sumby, Dave McMorran, William Lewis, Jon Slater, Jennifer Zampese, Justine Cottam, Jenny Burgess and Matthew Polton with whom I was shared the lab for the last few years and especially for their timely help in solving crystal related problems. I would also like to acknowledge the friendly help of Dr. Sean Devenish for HPLC and NMR problem solving and Ramin Zibaseresht for his help in preparing crystal diagrams

I would particularly like to thank my wife Maria and children Johnpaul, Brigiet for their full support for all these years of my work.

Finally, a special thanks to all the chemistry people of University of Canterbury who make me feel home even while far away from my homeland.

Table of Contents

Acknowledgements.....	i
Abstract.....	viii
Abbreviations.....	ix
Chapter 1. Introduction to the thesis.....	1
Chapter 2 : The effect of substituents on the ¹³C NMR chemical shifts of the sp² carbons of 5-substituted norbornenes.....	8
2.1 Introduction.....	8
2.2 The quantification of substituent effects.....	9
2.2(i) The Hammett equation	9
2.2 (ii) The resolution of electronic effects.....	12
2.3 The origin and nature of polar effects.....	13
2.4 The transmission of polar effects.....	16
2.5 Resonance effects.....	21
2.6 The effect of substituents on NMR chemical shifts.....	24
2.7 The effect of substituents on ¹³ C NMR Chemical Shifts.....	26
2.8 The effect of substituents on the ¹³ C NMR chemical shifts for C2 and C3 in 5-X norbornenes.....	30
2.9 Results and discussion.....	34
2.9(i) Interpretation of the chemical shift data for C2 and C3 of the 5-X- <i>exo</i> -2-norbornenes.....	42
2.9(ii) Interpretation of the results for the 5-X- <i>endo</i> -norbornenes....	53
Chapter 3 : The reactions of phenylselenenyl chloride with norbornenes.....	59
3.1 Introduction.....	59
3.1(i) Addition of phenylselenenyl chloride to norbornenes.....	62
3.1(ii) Addition to 5-substituted norbornenes.....	66

3.2	Results and discussion.....	70
3.2 (i)	Reactions of 5-substituted-2- norbornenes with phenylselenenyl chloride.....	71
3.2 (ii)	Reactions of 5- <i>exo</i> -substituted norbornenes with.....	73
	phenylselenenyl chloride.....	73
3.2 (iii)	Reactions of 5- <i>endo</i> -substituted 2-norbornenes with phenylselenenyl chloride.....	84
Chapter 4 :	Crystal Structures of Some 5-X-substituted-norbornenes.....	98
4.1	Introduction.....	98
4.2	Results and discussion.....	105
4.3	Disorder in crystals.....	110
4.4	Summary.....	116
Chapter 5 :	Experimental Part 1. Preparation of norbornenes.....	118
5.1	Instrumentation and reagents	118
5.2	Preparation of 5-substituted norbornenes.....	120
5.2(i).	Preparation of 5- <i>exo</i> and 5- <i>endo</i> -2-norbornene carboxylic acids.....	120
5.2(ii)	Preparation of 5- <i>exo</i> and 5- <i>endo</i> -cyanonorbornenes.....	123
5.2(iii).	Preparation of 5- <i>exo</i> and 5- <i>endo</i> -methoxycarbonyl- 2-norbornenes.....	127
5.2(iv)	Diels-Alder preparation of 5- <i>exo</i> - and 5- <i>endo</i> - methoxycarbonyl-2-norbornenes	129
5.2(v)	Preparation of 5- <i>endo</i> -acetyl-2-norbornene.....	129
5.2(vi)	Alternative method for preparing the <i>endo</i> isomer.....	131
5.2(vii)	Preparation of 5- <i>exo</i> - acetyl-2-norbornene.....	131
5.2(viii)	Preparation of 5- <i>exo</i> - and 5- <i>endo</i> -hydroxy -2-norbornenes...	133
5.2(ix)	Preparation of 2-norbornenone.....	135

5.2(x)	Preparation of 5- <i>exo</i> -amino-2-norbornene.....	139
5.2(xi)	Preparation of 5- <i>endo</i> -amino-2-norbornene.....	141
5.2(xii)	Preparation of 5- <i>exo</i> -phenyl-2-norbornene.....	142
5.2(xiii)	Preparation of 5- <i>endo</i> -methyl-2-norbornene.....	143
5.2(xiv)	Preparation of the 5-acetoxy-2-norbornenes.....	144
	(a) 5- <i>exo</i> -Acetoxy-2-norbornene.....	144
	(b) 5- <i>endo</i> -Acetoxy-2-norbornene.....	145
5.2(xv)	Preparation of the <i>exo</i> - and <i>endo</i> -5-methoxy-2-norbornenes.....	146
	(a) 5- <i>exo</i> -methoxy-2-norbornene.....	146
	(b) 5- <i>endo</i> -methoxy-2-norbornene.....	147
5.2(xvi)	Preparation of the 5- <i>exo</i> -halogeno-2-substituted-2-norbornenes.....	148
	(a) 5- <i>exo</i> -bromo-2-norbornene.....	148
	(b) 5- <i>exo</i> -chloro-2-norbornene.....	151
	(c) 5- <i>exo</i> -iodo-2-norbornene.....	153
5.2(xvii)	Attempted preparation of 5- <i>exo</i> nitro-2-norbornene.....	156
Chapter 6 :	Experimental Part 2. Reactions with phenylselenenyl chloride.....	157
6.1	Reactions of 2-norbornene with phenylselenenyl chloride.....	158
6.2	Reactions of norborn-5-en-2-one with phenylselenenyl chloride.....	159
6.3	Reactions of 5- <i>exo</i> -substituted norbornenes with phenylselenenyl chloride.....	160
6.3(i)	Reactions of 5- <i>exo</i> -bromo-2-norbornene.....	161

6.3(ii)	Reactions of 5- <i>exo</i> -chloro-2-norbornene.....	162
6.3(iii)	Reactions of 5- <i>exo</i> -iodo-2-norbornene.....	164
6.3(iv)	Reactions of 5- <i>exo</i> -hydroxy-2-norbornene.....	165
6.3(v)	Reactions of 5- <i>exo</i> -methoxy-2-norbornene.....	166
6.3(vi)	Reactions of 5- <i>exo</i> -acetoxo-2-norbornene.....	167
6.3(vii)	Reactions of 5- <i>exo</i> -amino-2-norbornene.....	169
6.3(viii)	Reactions of 5- <i>exo</i> -phenyl-2-norbornene.....	170
6.3(ix)	Reactions of 5- <i>exo</i> -carboxy-2-norbornene.....	171
6.3(x)	Reactions of 5- <i>exo</i> -methoxycarbonyl-2-norbornene.....	173
6.3(xi)	Reactions of 5- <i>exo</i> -acetyl-2-norbornene.....	174
6.3(xii)	Reactions of 5- <i>exo</i> -cyano-2-norbornene.....	175
6.4	Reactions of 5- <i>endo</i> -X-substituted-2-norbornenes.....	177
6.4(i)	Reactions of 5- <i>endo</i> -hydroxy-2-norbornene.....	177
6.4(ii)	Reactions of 5- <i>endo</i> -methoxy-2-norbornene.....	178
6.4(iii)	Reactions of 5- <i>endo</i> -acetoxo-2-norbornene.....	180
6.4(iv)	Reactions of 5- <i>endo</i> -amino-2-norbornene.....	181
6.4(v)	Reactions of norborn-5-ene-2- <i>endo</i> -carboxylic acid.....	182
6.4(vi)	Reactions of 5- <i>endo</i> -methoxycarbonyl-2-norbornene.....	183
6.4(vii))	Reactions of 5- <i>endo</i> -acetyl-2-norbornene.....	185
6.4(viii)	Reactions of 5- <i>endo</i> -cyano-2-norbornene.....	186

6.5	Assignment of ^1H NMR spectra of products.....	187
Chapter 7 :	Experimental Part 3. Preparation of solid esters of 5-hydroxy-2-norbornene for X-ray study	193
7.1	<i>exo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-4-nitrobenzoate.....	193
7.2	<i>exo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-3,5-dinitrobenzoate.....	194
7.3	<i>exo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-3-nitrobenzenesulfonate.....	195
7.4	<i>exo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-4-bromobenzenesulfonate.....	196
7.5	<i>exo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-4-nitrophenyl ether.....	197
7.6	<i>exo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-3-nitrobenzoate.....	198
7.7	<i>endo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-4-nitrobenzoate.....	199
7.8	<i>endo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-3,5-dinitrobenzoate.....	200
7.9	<i>endo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-3-nitrobenzenesulfonate.....	201
7.10	<i>endo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-4-bromobenzenesulfonate.....	202
7.11	<i>endo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-4-nitrophenyl ether.....	203
7.12	<i>endo</i> -Bicyclo[2.2.1]hept-5-en-2-yl-3-nitrobenzoate.....	204
References.....		206
Appendix: The numbering of the skeleton in bicycloheptane derivatives.....		218
